33 people have recommended Daniel

"Daniel is a great developer! He worked with me for 2 years, and in the past year we worked on several projects together. Daniel designed and developed many of our operational systems, and created high quality systems that improved the business significantly, and supported that operational activity. He is Very responsible, target oriented, creative and into the details, and it was It was a pleasure working with him! "

— **Eran Hurvits**, *Product Manager, ironSource*, worked directly with Daniel at ironSource

"I know Daniel from our mutual work at IronSource. Daniel, was a valuable asset in our department. He is extremely knowledgeable on range of handy technologies. He knows his way in Linux very well and also PHP, and other web, server side stuff. But more than everything, he is always willing to help his team members as much as he can. He devote himself to every task as much as he can and I feel privileged working with him."

— **Alon Ohad**, *Senior Developer, ironSource*, worked directly with Daniel at ironSource

"It was a true pleasure working with Daniel for the past 2 years. Daniel is very thorough, creative and highly devoted to his work. Daniel is a great team player and a full partner for achieving business goals quickly and thoroughly. "

— **Tal Kdoshim**, *Product Manager, ironSource*, worked directly with Daniel at ironSource

"I worked with Daniel in the Development Department at Afterdownload. He is very goal oriented and an exceptional team player, very devoted to his work and always wants to do everything in a perfect way. Daniel is one of the best programmers I worked with. There were several situations when under extreme pressure Daniel suggested brilliant solutions to the problems we had. Daniel is always ready to help other team members. I really enjoyed working together with Daniel."

— **Sergiy Pechonkin**, worked directly with Daniel at AfterDownload Ltd

"Daniel is the nicest and kindest person whom I have ever had the privilege to work with. Not only is he a technical wizard, but he also exhibits impressive management and prioritization skills. I enjoyed every

second talking with Daniel about technology, learning new hard core PHP tricks from him and brain storming together complex availability solutions."

— **Sivan Greenberg**, worked with Daniel at Teleweb Services

"As a software engineer, Daniel provides industrial-grade solutions in time and according to specs. He works in a team as well as an one-man special task force, always bringing out high quality work. As a system architect, he's an independent and creative thinker. As a skilled craftsman, Daniel is able to come up with creative solutions that often exceed expectations. Daniel's friendly and ongoing personality makes it simple to work with him even for multicultural teams. It is a pleasure to work together with him."

— **Oleg Sverdlov**, managed Daniel at Teleweb Services

"I worked with Daniel for almost two years while he was leading the development of the Zend Web site. Daniel is super responsive, quick to handle requests and has a good eye for details. Many times, Daniel fixed last minuet issues that were found during our release process and by that helped me role out our products on time. Amit Roseberger Zend Core Group Leader. Zend Technologies."

— **Amit Roseberger**, worked with Daniel at Zend Technologies

"My first contact with Daniel began several years ago when he expressed interest in the Zend PHP Certification Program. He went on to become one of the first PHP Certified Engineers from Israel in Zend's online listing of Zend Certified Engineers. Later he joined the Zend team and has proven to be not only a brilliant developer but also a team player with the gift of resolving issues in a responsive and efficient manner."

— **natalie efroni**, worked with Daniel at Zend Technologies

"Daniel is an amazing person, who always responded kindly to anything that my department needed even when there was a lot of work! it's was a pleasure to work with someone who trully cares about his job and about the service he provides!"

— **Kfir Ozer**, worked directly with Daniel at Zend Technologies

"Daniel is a very detailed and conscientious engineer. He brought some tremendous contributions to Zend and was an excellent troubleshooter and solver of issues. I would highly recommend him in any team looking for the above strengths."

— **Howard Clayman**, worked directly with Daniel at Zend Technologies

"I had the pleasure to work and manage one of the brightest developers (PHP in my case) I have ever meet, with the most unique approach to software architect, design and coding. Daniel is constantly looking for

new solutions and doesn't afraid to dive into new, unfamiliar challenges, something I always appreciate in a software developer. Working and managing Daniel was a unique experience and I hope we will have a chance to work together again in the future."

— **Boaz Ziniman**, managed Daniel at Zend Technologies

"Daniel is one of the most creative and versatile developers I've ever worked with. He's quite good at understanding business objectives and coming up with three different -- but equally viable -- ways to solve the issues. Although he's an engineer's engineer, he knows how to understand business issues and he's quite good at anticipating problems and architecting solutions. Wish I could work with him again, or others equally good. A rare bird!"

— **David Taber**, worked directly with Daniel at Zend Technologies

"I'd like to recommend Daniel as a very strong and self-motivated PHP developer and Web specialist. In addition to his fluency in programming and site administration Daniel has a deep knowledge in designing of the site business model. I'd be happy to work with Daniel in the future!"

— **Michael Spector**, worked with Daniel at Zend Technologies

"Daniel is a great software developer and a great team player His knowledge and willingness to help others made him a company wide resource for questions. It was a great pleasure working with Daniel, hope to work with him also in the future."

— **Aviv Katz**, worked with Daniel at Zend Technologies

"Daniel is known as an extremely responsible employee and demonstrated a very high level of dedication while completing his tasks. Daniel is a VERY social person and is loved by all his colleagues. We used to work together planning the new software update mechanism of Zend Network, Daniel "jumped into the water" showing huge knowledge of how complex web based server should work, always with a smile and good advice. I wish to work with Daniel again someday."

— **Oded Rabani**, worked with Daniel at Zend Technologies

"Daniel is a responsible and dedicated engineer who put a lot of effort in bringing the company's site and infrastructure to high level standards. Daniel and I worked close together when it has to do with launching new products. Daniel impressed me with his professional skills and helped me as Product manager to achieve my product's goals. I'm sure that Daniel will succeed in any company he will work for and i wish him good luck."

— **Yossi Leon**, worked with Daniel at Zend Technologies

"Daniel is a very talented and motivated programmer. I knew that for every task or problem I had He'd solve it quickly no matter how difficult the task be. Would definitely be happy to work with him again in the future!"

— **Revital Hasenfratz**, worked with Daniel at Zend Technologies

"Working with Daniel was a pleasure, He's the type of person you can connect to very quickly. Daniel is very organized and hard working. A true professional."

— **Ofer Eirew**, worked with Daniel at Zend Technologies

"Daniel is one of the brightest developer's I've ever had the pleasure to work with. He is quick, methodical, and well thought-out but his knowledge extends beyond that of a traditional developer into one who understands business processes and the interconnection between. He would be a tremendous asset to any organization. It's been a pleasure having him as a client and as a partner in achieving our client goals."

— **David Korba**, was a consultant or contractor to Daniel at Zend Technologies

"Daniel is one of the best programmers and software designers i met. He was able to leverage his extensive knowledge to solving any problems with very efficient approaches. I had the pleasure of working with Daniel in the same team (1.5 years) I wish all the best in his future and I'm sure he will contribute a lot in his new jobs. Keep in touch!"

— **Ruslan Glick**, worked directly with Daniel at Zend Technologies

"Daniel is the guy you want to have when you are running web operations and need positive and professional attenion with fast problem resolution !!! ...oh yes.... he is a grea guy too"

— **Amir Yampel**, worked with Daniel at Zend Technologies

"Daniel is a creative problem solver and organized and motivated developer. I enjoyed working with him."

— **Michal Wachstock**, worked with Daniel at Zend Technologies

"Daniel is a professional, passionate, and dedicated asset to Zend Technologies. He enjoys his work and provides superb internal-customer satisfaction. It has been a pleasure having Daniel as a part of my team."

— **Daniel Kushner**, managed Daniel at Zend Technologies

"Daniel brings technical skill amd talent along with his business experience and passion to all of his activities and projects. I have always appreciated the value of this broader perspective in team members on any project - Daniel is an excellent example of an such a resource."

— **Tom Tobin**, worked with Daniel at Zend Technologies

"Daniel is a superb PHP developer. His knowledge of PHP and its capabilities is expansive. Additionaly, he is able to analyze business requirements and distill them into deliverables -- and execute those deliverables both expeditiously and effectively. I have found him an amiable colleague; I cannot recommend him highly enough."

— **Matthew Weier O'Phinney**, managed Daniel indirectly at Zend Technologies

"Daniel is extremly professional and he's always motivated and has a positive attitude when dealing with people. He lead the project we worked for and used own initiative and paid close attention to detail. He's motivated, honest and results oriented !!!! LK"

— **Laurent Kupersztych**, was a consultant or contractor to Daniel at Zend Technologies

"In the last monthes i had the pleassure working close with Daniel on the syncronization of the different Zend's products versions. Daniel is a true professional and always willing to help and share his vast knowledge with others. Daniel always pay attention to the small details and like to investigate and learn new things in order to simplify the quality of our products."

— **Meni Frish**, worked with Daniel at Zend Technologies

"Daniel is dedicated & talented PHP specialist; patient and careful at interpersonal relations, willing to help and share his knowledge and experience with others."

— **Seva Lapsha**, managed Daniel indirectly at Zend Technologies

"As the Director of Global Services at Zend I have numerous interactions with Daniel,I wanted to express my deep appreciation and satisfaction from Daniel's work.His help is priceless, his responsiveness is great, his professionalism is very high and in addition he is fun to work with. I highly recommend him as a person and an employee."

— **Yoram Elalouf**, worked with Daniel at Zend Technologies

"Daniel is a top-tier PHP developer who pays close attention to detail and produces excellent code. His focus on reusability, scalability, and performance result in excellent products. Beyond his professional abilities, Daniel's sense of humor, pleasant and easy-going nature, and willingness to learn new things make him a great person to work with."

— **Jonathan Aizen**, worked indirectly for Daniel at Koret Communications

"Daniel was an absolute pleasure to work with. He was always able to bring a great big-picture perspective to our projects and do much more than just what he was hired for. Many projects wouldn't have succeeded without his attention to detail and ability to manage resources most effectively."

— **Jacob Shwirtz**, worked directly with Daniel at Koret Communications

"I recommend Daniel, and especially applaud his ability to work on high technology proyects"

— **Humberto Pröschle**, managed Daniel at dmapas.com

"Daniel es una de esas personas que uno agradece haber tenido como compañero. Con buena disposición a trabajar en equipo, y siempre dispuesto a compartir su conocimiento; aprendí de él que si una solución aparentemente no es posible, se puede inventar. Y que si estás absolutamente convencido de algo, todavía debes preguntarte si tienes razón. Cómo lo recuerdo: creativo y místico."

— **Alejandro Jara Miranda**, worked with Daniel at Inter Media S.A.
